Journal of the
AUDIO ENGINEERING SOCIETY

JANUARY 1955 — VOLUME 3, NUMBER 1

On Stylus Wear and Surface Noise in Phonograph Playback Systems—*F. V. Hunt* . . . 2
Record Quality and Its Relation to Manufacturing—*A. M. Max* . . . 19
Frequency-Modulation Noise in Magnetic Recording—*R. A. von Behren and R. J. Youngquist* . . . 26
Defects in Magnetic Recording Tape: Their Cause and Cure—*Frank Radocy* . . . 31
Correlation of Transient Measurements on Loudspeakers with Listening Tests—*Murlan S. Corrington* . . . 35
Multi-impedance, Multifrequency Crossover Networks for Multispeaker Systems—*Abraham B. Cohen* . . . 40
AES News . . . 49
Journal Authors . . . 63

APRIL 1955 — VOLUME 3, NUMBER 2

Record Stylus Pressure—*A. M. Max* . . . 66
Present-Day Developments in Magnetic Pickups—*Walter O. Stanton* . . . 70
Frequency Characteristics of a Sound-Reinforcing System—*William B. Snow* . . . 74
A Microphone for Informal Use—*L. M. Wigington and R. M. Carrell* . . . 77
An Extended Cathode-Coupled Phase Inverter and Its Application to Single-Ended Push-Pull Amplifiers—*Hiroshi Amemiya* 82
An Electrostatic Loudspeaker Development—*Arthur A. Janszen* . . . 87
Development of a Subminiature Tape Recorder—*Albert C. Travis, Jr.* . . . 91
MIL-T-27 Procurement Problems—*Eugene L. Haikin* . . . 97
A Method for the Quantitative Measurement of Wind-Noise Sensitivity in Microphones—*R. M. Carrell* . . . 102
Decibel Tables; Power and Voltage Ratios . . . 106
AES News . . . 110
Journal Authors . . . 118
Membership Application Blank . . . 119

JULY 1955 — VOLUME 3, NUMBER 3

Transient Behavior of Electric Wave Filters—*Leslie Norde* . . . 122
Power Amplifiers for Music Reproduction—*Hermon H. Scott* . . . 132
Locating Defects in Magnetic Recording Tape—*Andreas Kramer* . . . 143
The Appreciation of Tone Quality—*Charles D. Lindridge* . . . 147
Measurement of Flutter and Wow in MagneticTape Instrumentation Recorders—*John T. Mullin* . . . 151
High-Efficiency Three-way Speaker System—*Saul J. White* . . . 155
Practical Tape Duplication—*Ross H. Snyder* . . . 160
AES News . . . 165
Journal Authors . . . 167

Fundamentals of Speech Synthesis—*Homer Dudley* . . . 170
Magnetic Properties of Recording-Tape Pigments—*J. Gittleman* . . . 186
Standards of Acceptability for High-Fidelity Loudspeakers—*P. D. Collings-Wells* . . . 191
On Electrical Loading of Microphones—*Richard E. Werner* . . . 194
A Transistorized Tape Recorder—*A. I. Aronson* . . . 198
Magnetic Pickups and Proper Playback Equalization—*Walter O. Stanton* . . . 202
A Co-ordinated Church Audio-Visual System—*Clyde R. Keith* . . . 206
Some Design Criteria for Magnetic Tape—*Robert A. von Behren* . . . 210
Seventh Annual Convention of the AES—Preliminary Report
Highlights . . . 217
Program of Technical Sessions . . . 217
Exhibitors at Audiorama 1955, New York . . . 222
Membership Information . . . 225
Journal Authors—*A. I. Aronson, P. D. Collings-Wells, Homer W. Dudley, J. Gittleman, Clyde R. Keith, Walter O. Stanton, Robert A. von Behren, Saul J. White* . . . 227
Annual Index for Volume 3 (1955), JOURNAL OF THE AES . . . 229
Membership Application Blank . . . 231

Author Index

Amemiya, Hiroshi. An Extended Cathode-Coupled Phase Inverter and Its Application to Single-Ended Push-Pull Amplifiers, 82
Aronson, A. I. A Transistorized Tape Recorder, 198
Carrell, R. M. A Method for the Quantitative Measurement of Wind-Noise Sensitivity in Microphones, 102. Also see Wigington, L. M.
Cohen, Abraham B. Multi-impedance, Multifrequency Crossover Networks for Multispeaker Systems, 40
Collings-Wells, P. D. Standards of Acceptability for High-Fidelity Loudspeakers, 191
Corrington, Murlan S. Correlation of Transient Measurements on Loudspeakers with Listening Tests, 35
Dudley, Homer. Fundamentals of Speech Synthesis, 170
Gittleman, J. Magnetic Properties of Recording-Tape Pigments, 186
Haikin, Eugene L. MIL-T-27 Procurement Problems, 97
Hunt, F. V. On Stylus Wear and Surface Noise in Phonograph Playback Systems, 2
Janszen, Arthur A. An Electrostatic Loudspeaker Development, 87
Keith, Clyde R. A Co-ordinated Church Audio-Visual System, 206
Kramer, Andreas. Locating Defects in Magnetic Recording Tape, 143
Lindridge, Charles D. The Appreciation of Tone Quality, 147
Max, A. M. Record Quality and Its Relation to Manufacturing, 19; Record Stylus Pressure, 66
Mullin, John T. Measurement of Flutter and Wow in Magnetic-Tape Instrumentation Recorders, 151
Norde, Leslie. Transient Behavior of Electric Wave Filters, 122
Radocy, Frank. Defects in Magnetic Recording Tape: Their Cause and Cure, 31
Scott, Hermon H. Power Amplifiers for Music Reproduction, 132
Snow, William B. Frequency Characteristics of a Sound-Reinforcing System, 74
Snyder, Ross H. Practical Tape Duplication, 160
Stanton, Walter O. Present-Day Developments in Magnetic Pickups, 70; Magnetic Pickups and Proper Playback Equalization, 202
Travis, Albert C., Jr. Development of a Subminiature Tape Recorder, 91
von Behren, R. A. and Youngquist, R. J. Frequency-Modulation Noise in Magnetic Recording, 26
von Behren, Robert A. Some Design Criteria for Magnetic Tape, 210
Werner, Richard E. On Electrical Loading of Microphones, 194
White, Saul J. High Efficiency Three-way Speaker System, 155
Wigington, L. M., and Carrell, R. M. A Microphone for Informal Use, 77
Youngquist, R. J. See von Behren, R. A.
